## FINANCIAL RELEASE

$\left[\begin{array}{llll} & & \\ \text { FOR } & \text { FINANCIAL } & \text { RESULTS } \\ & \text { THE SIX } & \text { MONTHS ENDED } \\ & \text { SEPTEMBER } & 30, \quad 2006\end{array}\right]$

## 1. Results for the Six Months Ended September 30, 2006

(1) Results of Operation

|  | Net Sales | Percent Change | Operating Income | Percent Change |
| :---: | :---: | :---: | :---: | :---: |
| Six Months Ended <br> September 30, 2006 | $1,465,693$ | $+9.7 \%$ | 90,167 | $+20.1 \%$ |
| Six Months Ended <br> September 30, 2005 | $1,335,547$ | $+6.2 \%$ | 75,068 | $-3.2 \%$ |
| Year Ended <br> March 31, 2006 | $2,797,109$ |  | 163,710 |  |

|  | Net Income <br> (Millions of Yen) | Percent Change | Net Income per Share (Yen) | Fully Diluted Net Income <br> per Share (Yen) |
| :---: | :---: | :---: | :---: | :---: |
| Six Months Ended <br> September 30, 2006 | 46,540 | $+27.5 \%$ | 42.66 | - |
| Six Months Ended <br> September 30, 2005 | 36,492 | $-7.2 \%$ | 33.45 | - |
| Year Ended <br> March 31, 2006 | 88,671 |  | 80.85 | - |

Note:(1) Equity in net income of non-consolidated subsidiaries and affiliates:
September 30, 2006; -69 million yen, September 30, 2005; 259 million yen, March 31, 2006; 1,023 million yen
(2) Average number of shares outstanding for the six months ended September 30, 2006: 1,090,849,256 shares, for the six months ended September 30, 2005; 1,091,037,354 shares, for the year ended March 31, 2006; 1,090,990,540 shares
(3) Changes in Accounting Methods: Yes
(4) The percentage figures for net sales, operating income and net income represent the percentage of increase or decrease against the same period of the previous year

## (2) Financial Position

Millions of Yen

|  | Total Assets | Net Assets | Shareholders' Equity <br> Ratio | Net Assets <br> per Share (Yen) |
| :---: | :---: | :---: | :---: | :---: |
| As of September 30, <br> 2006 | $2,751,067$ | $1,142,591$ | $41.2 \%$ | $1,039.64$ |
| As of September 30, <br> 2005 | $2,492,122$ | $1,035,338$ | $41.5 \%$ | 948.98 |
| As of March 31, 2006 | $2,560,299$ | $1,098,910$ | $42.9 \%$ | $1,006.91$ |

Note: Number of shares outstanding as of September 30, 2006; 1,090,799,997 shares, as of September 30, 2005; 1,091,000,786 shares, as of March 31, 2006; 1,090,901,026 shares
(3) Summary of Consolidated Cash Flows

Millions of Yen

|  | Cash Flows from Operating <br> Activities | Cash Flows from Investing <br> Activities | Cash Flows from Financing <br> Activities | Cash and Cash Equivalents <br> Ending Balance |
| :---: | :---: | :---: | :---: | :---: |
| Six Months Ended <br> September 30, 2006 | 120,770 | $(120,308)$ | $(537)$ | 301,334 |
| Six Months Ended <br> September 30, 2005 | 112,169 | $(141,429)$ | 22,097 | 290,422 |
| Year Ended <br> March 31,2006 | 263,753 | $(229,386)$ | $(33,760)$ | 299,466 |

(4) Consolidated Subsidiaries and Companies Accounted for on the Equity Method

Number of consolidated subsidiaries: 50 companies (Major subsidiaries: Sharp Electronics Marketing corp., Sharp Electronics Corporation<USA>, etc.)
Number of nonconsolidated subsidiaries accounted for on the equity method: 1 company (Sharp India Ltd.<India>)
Number of affiliates accounted for on the equity method: 10 companies (Major affiliate: Sharp-Roxy (Hong Kong) Ltd., etc.)
(5) Changes in Scope of Consolidation and Application of the Equity Method

Consolidation (Addition): 3 companies (Sharp Business Computer Software Inc., Sharp Electronics Sales (China) Co., Ltd.,
Sharp Manufacturing Poland Sp.z o.o.)

Application of the equity method: No change

## 2. Forecast for the Year Ending March 31, 2007

| Year Ending <br> March 31, 2007 Sales | $3,000,000$ | Operating Income | Net Income |

Note: Forecast for net income per share; 91.68 yen

## Management Policy

## 1. Basic Management Policy

The Sharp Group's business creed is based on the principles of "Sincerity and Creativity." Our aim is to inspire all our daily work with these principles so that we can earn the appreciation of people everywhere, and make a valuable contribution to society. Our corporate philosophy expresses our desire to grow in mutual prosperity with all stakeholders in the business, including shareholders, business partners, and employees.

## 2. Mid- and Long-Term Business Strategy and Issues the Company Needs to Face

## (1) Securing Competitive Advantage in the Global Market

Sharp is aiming to become a "valued one-of-a-kind company" with a dominant presence in the world. By further strengthening the development of original cutting-edge devices and accelerating creation of unique products which meet the needs of a new era, we will secure competitive advantage in the global market. Especially for LCDs, our core competence, we will globally introduce LCD applications, including highquality large-size LCD TVs, by intensifying R\&D, expanding production capacity and improving cost competitiveness. Through these efforts, we are committed to achieving stable growth into the future and further enhance our corporate value globally.

## (2) Efforts to Protect the Environment

Sharp sees the issue of environmental protection as a medium-term business challenge. With our energycreating and energy-saving technologies, we aim to achieve our corporate vision of being a company that has "zero global warming impact" by fiscal 2010. We will contribute to the realization of a sustainable society by pursuing coexistence of business expansion and environmental protection. Specifically, we will work to reduce the environmental burden at all production stages, along with enhancing the business of photovoltaic power generation systems and introducing environmentally friendly products.

## (3) Strengthening Our Business Foundation to Support Production

Sharp will strengthen the fundamentals of its manufacturing activities, which we see as a driving force for future growth. These include establishing an efficient value-chain which enables production within a short timeframe at low cost and promoting global procurement activities. We will also enhance intellectual property strategies, with all business groups working closely together.
(4) Evolving into an Organization that Enhances Corporate Competitiveness

In an effort to achieve further corporate competitiveness, Sharp will take measures to improve organizational and individual capabilities. Specifically, we will establish an organization capable of rapid decision-making with strategic perspective. We will also nurture our core personnel from a global standpoint and create an environment for productive work that brings vitality to the workplace.

By deploying these business strategies, we are aiming to improve ROE (return on equity) and free cash flow as the main management indicators, as well as working to further increase corporate value. We are also continuing to focus on enhancing our return on investment in all our business divisions, based on "profit after capital cost" (PCC), which is calculated by subtracting the cost of invested capital from NOPAT (net operating profit after income taxes).

## 3. Basic Policy on Distribution of Earnings

Sharp considers distributing profits to shareholders to be one of management's top priorities. While maintaining consistently stable dividend pay-outs, and while carefully considering our business performance, financial situation and future business operation in a comprehensive manner, we will implement a set of policies to return profits to our investors, such as increasing the amount of periodic dividends. Our dividends have been raised for 6 consecutive years from fiscal 2000 though 2005. For fiscal 2006, we will distribute an interim dividend of 12 yen per share. Since we are planning to distribute a year-end dividend of 12 yen per share, the total annual dividend will be 24 yen per share, an increase of 2 yen over the previous year. With this dividend increase, our dividends will have been raised for 7 consecutive years from fiscal 2000 though 2006.

Internal reserve funds are being provided for investment in plant and equipment in areas of future growth, for development of uniquely featured products and proprietary electronic devices. They are also being provided for overseas business expansion and environmental protection measures.

## 4. Concept and Policy Regarding Reducing the Share Trading Unit Size

Sharp recognizes that increasing the number of individual shareholders is an important issue from the standpoint of its capital management. For this reason, in addition to increasing the level of profits returned to shareholders, we have taken measures to create reports that are easy for individual shareholders to understand, and to expand information resources that are accessible by the Internet. We consider reducing the share trading unit size to be a measure that would be useful in invigorating the stock market as a whole. We will deal with this issue through careful consideration regarding such factors as the price of Sharp Corporation stock and shareholder composition.

## Operating Results and Financial Position

## 1. Review of Six Months Ended September 30, 2006

During the past interim period, the Japanese economy continued to recover steadily, supported by an increase in private consumption and corporate investment due to improved earnings results. Overseas, economies in Asia and Europe have been growing strongly, while a decelerating trend was seen in the U.S. economy, such as slowing in the housing market.

The Sharp Group took assertive initiatives through the introduction of one-of-a-kind products and through the development of proprietary devices which support the creation of these one-of-a-kind products. We consistently focused on making highly distinctive products and devices and thus realized higher profitability. The following are examples of our efforts made during the interim period:

In the Consumer/Information Products business, we worked to further expand sales of LCD color TVs. With ongoing advancement in digital high-definition broadcasting around the globe, we expanded our lineup of full high-definition LCD TVs and worked toward expanding sales worldwide. Other efforts included an enhancement of unique products, such as mobile phones capable of receiving "One segment broadcasting" or "One Seg," a new type of terrestrial digital broadcasting for mobile equipment.
In the Electronic Components business, we strived to further expand LCD business. For large-size LCDs, we began operations at the Kameyama No. 2 plant. This is the world's first LCD production facility to adopt eighth generation glass substrates, which enable the production of 40 - and 50 -inch-class LCD panels with extremely high efficiency. For small- and medium-size LCDs, we intensified sales of LCD panels for mobile equipment, including System LCDs. As for photovoltaic power generation systems, we continued to take aggressive measures to expand the business globally, with a wide product lineup variety.
As a result, the interim period recorded domestic net sales of 710.6 billion yen, up $3.7 \%$ over the same period last year, and overseas net sales of 755.0 billion yen, up $16.1 \%$, for a total of $1,465.6$ billion yen, up $9.7 \%$. Operating income was 90.1 billion yen, up $20.1 \%$ from the same period last year. Net income was 46.5 billion yen, up 27.5\%.

Regarding cash flow, net cash provided by operating activities was 120.7 billion yen, while net cash used in investing activities was 120.3 billion yen. Net cash used in financing activities was 0.5 billion yen. As a result, cash and cash equivalents at the end of the period were 301.3 billion yen, increases of 1.8 billion yen compared to March 31, 2006.

We decided on an interim dividend of 12 yen per share, an increase of 2 yen over the previous year.
Operating results by product group are as follows:

## Consumer/Information Products

Sales of Audio-Visual and Communication Equipment were 587.8 billion yen, up $14.4 \%$ over the same period last year. Sales of LCD color TVs, mainly large-size models, and mobile phones increased, contributing to the overall sales increase.

Sales of Home Appliances were 119.2 billion yen, up $6.5 \%$. Sales increased for our distinctive products, such as superheated steam ovens.
Sales of Information Equipment were 211.6 billion yen, up $2.1 \%$. Sales of copier/printers, mainly digital full-color MFPs increased, resulting in overall sales growth.

## Electronic Components

Sales of LSIs were 72.7 billion yen, up $9.7 \%$ from the same period last year. Sales increased for major devices, including CCD/CMOS imagers.

Sales of LCDs were 324.2 billion yen, up $9.7 \%$ over the same period last year. The solid growth in sales of LCD panels for large-size TVs and mobile equipment contributed to an overall sales increase.

Sales of Other Electronic Components were 150.1 billion yen, up $7.0 \%$. Sales of solar cells expanded, resulting in overall sales increase.

## 2. Forecast for Fiscal 2006

As for the outlook for fiscal 2006, the Japanese economy is expected to maintain a solid recovery, driven by private demand. However, attention should be given to the world economy, as cause for concern remains, such as an increasingly uncertain outlook for the U.S. economy.

In an effort to achieve further growth, the Sharp Group is strengthening its one-of-a-kind strategy, as we work to improve profitability and get the maximum value out of the company.

In the Consumer/Information products business, we will work to further improve the competitiveness of LCD color TVs. This is to be accomplished through globally introducing large-size models with a full-spec high-definition LCD panel. We will also promote creation of optimal production systems at major global markets, and pursue thorough cost reduction. One-of-a-kind products in other business areas will be also upgraded. These include high-value-added mobile phones incorporating our original device technologies.

In the Electronic Components business, we will engage in enhancing our line of original devices through the following measures. To further expand our LCD business, we aim to increase sales of large-size panels for TVs, with the introduction of a second production line at the Kameyama No. 2 plant. Other measures include enhancing cost competitiveness of panels for mobile equipment, including System LCDs. In photovoltaic power generation systems, we will work to expand sales in global markets, with technical innovation and enhanced cost competitiveness.

In addition to these efforts, we will continuously seek innovation in production technologies as well as promoting R\&D and value engineering in order to achieve further growth. Lastly, we will continue to take initiatives proactively to enhance our CSR efforts, which include conducting business in an environmentally responsible manner, complying with laws and statues.

Sharp Corporation resolved the $20^{\text {th }}$ unsecured convertible bond issue with attached warrants (total issue amount of 200.0 billion yen) that was decided at the Board of Directors meeting held on September $26^{\text {th }}, 2006$. The bond was issued on October $17^{\text {th }}, 2006$ and will be used to fund plant and equipment.

The following are the forecasts for fiscal 2006 (Consolidated):

| Net sales | 3,000.0 billion yen | $+7.3 \%$ over the previous fiscal year |
| :--- | ---: | :--- |
| Operating income | 180.0 billion yen | $+10.0 \%$ over the previous fiscal year |
| Net income | 100.0 billion yen | $+12.8 \%$ over the previous fiscal year |

The above figures are based on an exchange rate of $¥ 115=$ US $\$ 1.00$ for the second half of fiscal 2006.
The company also plans to declare an annual dividend for fiscal 2006 of 24 yen per share (interim and year-end dividend of 12 yen each), an increase of 2 yen over the previous year.

Note:
*The above estimates of operating results are based on certain assumptions that Sharp Corporation deemed reasonable at the time they were prepared, and actual operating results may differ significantly from these estimates. The factors that may influence the figures for final reported business results include, but are not limited to:

- The economic situation in which the Sharp Group operates
- Sudden, rapid fluctuations in demand for products and services, as well as intense price competition
- Changes in exchange rates (particularly between the yen and the U.S. dollar, the euro and other currencies)
- Sharp's ability to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products and services
- Regulations such as trade restrictions in other countries
**The accompanying consolidated financial statements are a translation of the consolidated financial statements of Sharp, which were prepared in accordance with accounting principles and practices generally accepted in Japan. In preparing the accompanying consolidated financial statements, certain reclassifications have been made in the consolidated financial statements issued domestically, in order to present them in a form which is more familiar to readers outside Japan.

## Important Matters on Presenting Interim Consolidated Financial Statements

Matters Related to Accounting Procedure Standards

1) Valuation Standards and Methods for Securities

Other Securities

- Securities with available fair market values:

Primarily, stated at fair market value based on average of market price during the last month of the interim period (valuation differences are disposed using the direct net assets adjustment method and the cost of securities sold is calculated using the average cost method).

- Securities with no available fair market value: Primarily, stated at average cost.

2) Valuation Standards and Methods for Inventories

- Finished products:

For Sharp Corporation and domestic consolidated subsidiaries, primarily, stated at the lower of moving average cost or market.
For overseas consolidated subsidiaries, primarily, stated at the lower of first-in, first-out cost or market.

- Work in Process and raw materials:

Primarily, stated at the current production and purchase costs.
3) Depreciation Methods Used for Tangible Fixed Assets

For Sharp Corporation and domestic consolidated subsidiaries, depreciation is based primarily on the declining-balance method. (Except for machinery and equipment in the Mie and Kameyama Plants, which are depreciated on the straight line method.)
Note that overseas consolidated subsidiaries primarily use the straight line method.
4) Method for Appropriation for Accrued Bonuses

The reserve for payment of employee bonuses is set aside based on estimated amounts to be paid in the subsequent period.
5) Method for Appropriation for Severance and Pension Benefits

To provide for employees’ severance and pension benefits, reserves are set aside based on the estimated amounts of projected benefit obligation and the fair value of plan assets at the end of the current consolidated fiscal year.
Further, net transition obligation is being amortized in equal amounts over 7 years.
Prior service costs are amortized over the average of the estimated remaining service lives (16 years).
Actuarial losses are recognized primarily in expenses over the average of estimated remaining services lives (16 years) commencing with the following period.
6) Accounting for Consumption Taxes, etc.

The tax exclusion method is applied.
7) Adaptation of Consolidated Tax Return System

The consolidated tax return system is adapted.

## Changes in Accounting Methods

Previously, a royalty and technical assistance fee were included in "Other income," and the cost of the royalty and technical assistance fee was calculated in "Other expenses." Starting from this period, however, these are included in "Net sales" and "Cost of sales," respectively. This change was made to provide a more rational indication of the income classifications, since the income arises from main business activities carried out by Sharp.

With this change, for the six months ended September 30, 2006, net sales are up 8,245 million yen, cost of sales is up 2,251 million yen, and operating income is up 5,994 million yen, comparing to the previous classification. However, these have no impact on income before income taxes and minority interests. For the impact that these changes had on segment information, please refer to "Segment Information."

## Subsequent Events

Sharp Corporation resolved the $20^{\text {th }}$ unsecured convertible bond issue with attached warrants that was decided at the Board of Directors meeting held on September 26 ${ }^{\text {th }}$, 2006. The payment date (warrant distribution date) was October $17^{\text {th }}, 2006$.
Principal data on the issuance are as follows.

1. Total issue amount
2. Issue value of bond
3. Issue price of bond
4. Coupon rate of bond
5. Maturity date of bond
6. Issue value of attached warrants
7. Total amount due upon exercise of attached warrants
8. Conversion price
9. Number of attached warrants issued
10. Exercise period of attached warrants
11. Payment date (warrant distribution date)
12. Application of funds
200.0 billion yen

100 yen for each 100 yen of face value 102.5 yen for each 100 yen of face value 0\%
September 30, 2013
0 yen
The same amount as issue value of bond 2,531 yen per share
200,000
November 1, 2006 to September 27, 2013
October 17, 2006
Funds for plant and equipment

## 4．Information by Product Group

［Sales by Product Group include internal sales between segments（Consumer／Information Products and Electronic Components）．
Starting from the latter half of previous year，the IC group was renamed the LSI group and some items previously included in ICs were allocated to Other Electronic Components．Accordingly，results of the six months ended September 30， 2005 have been reclassified．］
