Note: Revisions to forecast of financial results in this quarter; None

## 4. Other Information

(1) Changes in significant consolidated subsidiaries
(Changes in specified subsidiaries involving changes of scope of consolidation)
None

## (2) Simplified accounting methods and adoption of special accounting methods for preparation of quarterly financial statements <br> Yes

Note: For detailed information, please refer to "4. Other Information" of [Qualitative Information and Financial Statements] on page 5.
(3) Changes in accounting principles, procedures and presentation methods for preparation of quarterly financial statements

1. Changes arising from revision of accounting standards: Yes
2. Changes arising from other factors: None

Note: For detailed information, please refer to "4. Other Information" of [Qualitative Information and Financial Statements] on page 5.
(4) Number of shares outstanding (ordinary shares)

1. Number of shares outstanding (including treasury stock) as of June 30, 2009 ;

1,110,699,887 shares as of March 31, 2009 ; 1,110,699,887 shares
2. Number of shares of treasury stock as of June 30, 2009 ;

10,236,992 shares
10,219,774 shares
3. Average number of shares outstanding during the three months ended June 30, 2009 ; during the three months ended June 30, 2008 ;
$1,100,467,613$ shares
1,100,516,901 shares

## Notes:

1. For the assumptions and other related matters concerning financial results forecast, please refer to "3. Qualitative Information Regarding Forecast of Consolidated Financial Results" of [Qualitative Information and Financial Statements] on page 4.
2. Forecast of dividends for the year ending March 31, 2010 has yet to be determined, as we need further analysis on our future results and financial situation. We will make disclosure immediately after the forecast is determined.
3. Published figures have not been subjected to an accounting audit by an auditing firm.
4. The accompanying consolidated financial statements are a translation of the consolidated financial statements of the Sharp Group, which were prepared in accordance with accounting principles and practices generally accepted in Japan. In preparing the accompanying consolidated financial statements, certain reclassifications have been made in the consolidated financial statements issued domestically, in order to present them in a form which is more familiar to readers outside Japan.

## [Qualitative Information and Financial Statements]

## 1. Qualitative Information Regarding Consolidated Financial Results

During the three months ended June 30, 2009, severe economic conditions continued in Japan, amidst an ongoing financial crisis and a global recession. Private consumption showed signs of recovery, however, due to the government's economic stimulus package and other measures. Overseas, while the economies in China and other Asian countries picked up, the slowdown continued in the U.S. and Europe, affected by a vicious cycle between the worsening of the real economies and the financial crisis.

Under these circumstances, the Sharp Group took assertive initiatives through the introduction of one-of-akind products and through the development of proprietary devices which support the creation of these products. In addition, we steadily implemented a recovery plan, which includes company-wide cost reductions and other measures.

In the Consumer/Information Products business, we worked to create a new market through the introduction of our uniquely-featured products. These included high-resolution LCD color TVs with a drastic improvement in environmental performance, and mobile phones equipped with solar panels. We also enhanced our line-up of products featuring Plasmacluster Ion technology, to respond to rising awareness of health among consumers.

In the Electronic Components business, with recovering demand for large-size LCD panels for TVs, we made preparations for a capacity increase at the Kameyama No. 2 Plant in August and the start of operation at a new LCD panel plant in Sakai City, Osaka Prefecture in October.

Consolidated financial results for the three months recorded net sales of 598.2 billion yen, down $20.0 \%$ from the same period last year, and operating loss of 26.0 billion yen. Net loss was 25.2 billion yen, reflecting restructuring charges of 9.6 billion yen.

Operating results by product group are as follows:

## Consumer/Information Products

Sales of Audio-Visual and Communication Equipment were 311.6 billion yen, down $11.9 \%$ from the same period last year. Though sales of Blu-ray Disc players/recorders were strong, sales declined for LCD TVs and mobile phones.

Sales of Health and Environmental Equipment were 57.7 billion yen, up $0.1 \%$. Sales of air purifiers featuring Plasmacluster Ion technology and Plasmacluster Ion generators increased, which more than offset the decrease in sales of microwave ovens.

Sales of Information Equipment were 62.5 billion yen, down $14.0 \%$. Despite a steady increase in domestic sales of digital full-color MFPs, overseas sales declined.

## Electronic Components

Sales of LCDs were 92.6 billion yen, down $42.0 \%$ from the same period last year. Despite a recovery in demand, sales were affected by significant price declines for large-size LCDs for TVs and a sluggish market for smalland medium-size LCDs.

Sales of Solar Cells were 34.8 billion yen, down 17.1\%. Overseas sales declined, though domestic sales grew substantially, supported by subsidies for installation of residential photovoltaic power generation systems.

Sales of Other Electronic Devices were 38.9 billion yen, down 37.2\%. Sales of CCD/CMOS imagers for mobile phones decreased.

## 2. Qualitative Information Regarding Consolidated Financial Position

Total assets as of June 30, 2009 were 2,742.1 billion yen, up 53.4 billion yen from March 31, 2009, due mainly to an increase of assets resulting from investment in LCDs. Total liabilities were 1,707.9 billion yen, up 67.6 billion yen, due mainly to an increase in commercial papers. Total net assets were 1,034.2 billion yen, down 14.2 billion yen. This was due mainly to a decrease in retained earnings, while there was an increase in valuation and translation adjustments.

Regarding cash flows, net cash used in operating activities was 4.3 billion yen, while net cash used in investing activities was 74.5 billion yen. Net cash provided by financing activities was 49.4 billion yen. As a result, cash and cash equivalents at the end of the period were 287.8 billion yen, a decrease of 29.4 billion yen from March 31, 2009.

## 3. Qualitative Information Regarding Forecast of Consolidated Financial Results

The following is the current forecast of financial results for the year ending March 31, 2010. There are no revisions to the forecast announced on April 27, 2009.

| Net sales | $2,750.0$ billion yen | $-3.4 \%$ over the previous fiscal year |
| :--- | ---: | :---: |
| Operating income | 50.0 billion yen | - |
| Net income | 3.0 billion yen | - |

Note: The above estimates of financial results are based on certain assumptions that the Sharp Group deemed reasonable at the time they were prepared, and actual operating results may differ significantly from these estimates. The factors that may influence the figures for final reported business results include, but are not limited to:

- The economic situation in which the Sharp Group operates
- Sudden, rapid fluctuations in demand for products and services, as well as intense price competition
- Changes in exchange rates (particularly between the yen and the U.S. dollar, the euro and other currencies)
- The Sharp Group's ability to respond to rapid technological changes and changing consumer preferences with timely and cost-effective introductions of new products and services
- Regulations such as trade restrictions in other countries
- Litigation and other legal proceedings against the Sharp Group, etc.

## 4. Other Information

## (1) Changes in significant consolidated subsidiaries

(Changes in specified subsidiaries involving changes in scope of consolidation)
None
(2) Simplified accounting methods and adoption of special accounting methods for preparation of quarterly financial statements

## 1. Simplified accounting methods

- Inventory valuation methods Regarding calculating the value of inventory as of June 30, 2009, no physical inventory count is taken. Instead, an inventory valuation is computed using a reasonable method based on the physical inventory taken to calculate the value of inventory as of March 31, 2009.
- Cost variance apportionment methods

When cost variances occur due to the adoption of predetermined costs, said cost variances are apportioned to inventories and cost of sales in a simplified manner compared to preparation of annual financial statements.

- Noncurrent asset depreciation calculation methods When the declining-balance method is adopted as the method of calculating depreciation, depreciation for the fiscal years is computed by dividing the amount proportionately over the period.
- Income tax calculation methods

When computing the amount to be paid as income taxes, taxable addition and subtraction items and/or tax credits to be included are limited to important items.

## 2. Adoption of special accounting methods for preparation of quarterly financial statements

None
(3) Changes in accounting principles, procedures and presentation methods for preparation of quarterly financial statements

Previously, revenues and costs of construction contracts had been recognized under the completed-contract method. Starting from the three months ended June 30, 2009, however, the Company and its domestic consolidated subsidiaries have applied the "Accounting Standard for Construction Contracts" (Accounting Standards Board of Japan (ASBJ) Statement No. 15, issued by the ASBJ on December 27, 2007) and the "Guidance on Accounting Standard for Construction Contracts" (ASBJ Guidance No. 18, issued by the ASBJ on December 27, 2007). Accordingly, with regard to construction contracts commenced during the three months ended June 30, 2009, the percentage-of-completion method has been applied if the outcome of the construction activity is deemed certain at the end of the period, otherwise the complete-contract method has been applied. Under the percentage-of-completion method, the percentage of completion is estimated based on the percentage of the cost incurred to the estimated total cost. This change had no impact on financial statements.

## Going Concern Assumption

None

## Significant Changes in Owners’ Equity

None
