## Forward-Looking Statements

This presentation material contains certain statements describing the future plans, strategies and performance of Sharp Corporation and its consolidated subsidiaries (hereinafter "Sharp"). These statements are not based on historical or present fact, but rather assumptions and estimates based on information currently available. These future plans, strategies and performances are subject to known and unknown risks, uncertainties and other factors. Sharp's actual performance, business activities and financial position may differ materially from the assumptions and estimates provided on account of the risks, uncertainties and other factors. Sharp is under no obligation to update these forward-looking statements in light of new information, future events or any other factors. The risks, uncertainties and other factors that could affect actual results include, but are not limited to:
(1) The economic situation in which Sharp operates
(2) Sudden, rapid fluctuations in demand for Sharp's products and services, as well as intense price competition
(3) Changes in exchange rates (particularly between the yen and the U.S. dollar, the euro and other currencies)
(4) Regulations such as trade restrictions in other countries
(5) The progress of collaborations and alliances with other companies
(6) Litigation and other legal proceedings against Sharp
(7) Rapid technological changes in products and services, etc.

## I. Financial Results for Fiscal 2014

## Financial Results for Fiscal 2014

- In FY2004, net sales were down due to factors including intensifying competition in LCD TVs and smalland medium-size LCDs and slumping demand for solar cells.
- A significant net loss was recorded due to factors including the addition of other expenses from structural reform.

## Reasons for Difference Between Forecast and Results for Fiscal 2014

- Net sales were down significantly from the forecast due to unachieved targets in LCD TVs and smalland medium-size LCDs.
- A significant net loss was recorded due to costs on improvement of earnings structure including an allowance for difference between long-term contracted price of polysilicon and the actual market price, and inventory write-down in small- and medium-size LCDs, as well as structural reform of overseas LCD TV business, and impairment losses on manufacturing equipment.

## Breakdown of Operating Income (Fiscal 2013 vs Fiscal 2014)

- Although a cost reduction exceeded the amount of the price drop, the operating result worsened substantially due to decreased transient income, a decline in sales, a worsened model mix, and the costs of improving the earnings structure.

## Sales and Operating Income by Quarter

- Financial performance is expected to head towards recovery after bottoming out in 4Q of FY2014. But a deficit will still remain in 1Q of fiscal 2015.
- In 2H of FY2015, a dramatic recovery is expected, due to factors including a reduction in fixed costs as a result of structural reform.
