PN-H701
LCD MONITOR

Emilie de Vabres (b. 1966)

Amsterdam—An Ancient City of Water

This oil painting beautifully depicts one of the many canals that grace the cityscape of Amsterdam, the Dutch capital known for its close relationship with water. The painting captures the delicate shades of green at play in the trees and the warm, shimmering tones that represent reflections on the water's surface. Beyond the canvas, one imagines lively encounters with the locals who live on the water in Amsterdam's famous houseboats.

*Surpassing Expectations—
4K Ultra HD Monitor for
Visual Quality on a Grand Scale*

A Powerful and Capable 70-Inch-Class 4K Ultra HD

With a 70-inch-class screen and support for 4K Ultra HD (3,840 x 2,160-pixel) resolution, the PN-H701 offers the size and im More than just a superb digital signage solution, this monitor can be set up to provide eye-catching communication in a wide or public setting, the PN-H701 creates unprecedented new possibilities.

70-Inch-Class 4K Ultra HD

Image Quality beyond Your Imagination

Packed with state-of-the-art picture technologies, the PN-H701 is an outstanding communication platform. This 70-inch-class 4K Ultra HD monitor boasts a screen with the size and impressive super-high-resolution image quality to showcase all manner of content, from detailed text to beautifully textured graphics. With its huge and seamless screen and four times the resolution of 1080p full HD, it delivers all the detail, depth, and clarity that the content creator intended. Excelling in any indoor venue—whether in a retail, office, conference, or public setting—this is one monitor that will make an unforgettable impact on any audience.

(Simulated images)

4K Ultra HD Reveals the Finest Details

Despite the massive scale of the PN-H701 on-screen content is rendered in superbly detailed ultra-high definition. With movies and still images displayed at up to 4K Ultra HD, you get to see subtle textures and fine details not visible at full HD resolution. The high pixel count means there is no need to worry about jaggies, even on such a large screen.

(Simulated images)

An Ever-Ready 4K Display

USB Media Player

The PN-H701 can be set up to play slideshows of promotional or informational content without the need for a PC. A built-in USB media player allows playback of 4K Ultra HD photos¹, full HD videos, and music stored on a connected USB memory device². For added security, the PN-H701 comes with a USB flash drive cover to prevent theft of the data storage device. Still images can also be saved to the display's internal memory and played from there, without using USB media. The media player's auto play function enables images to be played automatically.

Supported media formats: JPEG for photos; MP4, M2TS, 3GP, and MOV for videos; and WAV, WMA, M4A, and MP3 for music.

¹ Supports input of photos with resolution equivalent to 8K. (Such photos are displayed at 4K.)

² USB storage device sold separately.

4K Upscaling and Offset Function

The PN-H701 is equipped with an advanced upscaling engine that can transform standard full HD source content into 4K images—in real-time. When full HD content is expanded to 4K on this monitor, an offset function works to minimise blurriness and jaggies, making images much smoother than with standard upscaling.

4K Transfer at 60 fps via Single Cable

The PN-H701 supports the features defined in HDMI™ 2.0, which enable stunning 4K Ultra HD 60p video signals to be transmitted conveniently over a single cable. The monitor features four HDMI inputs that enable easy switching between multiple sources.

Other Key Features

Stylish Design

The PN-H701 boasts an ultra-slim brushed-aluminium bezel that measures just 9 mm on the right, left, and top, and 14 mm on the bottom. The elegant and understated bezel helps the display to blend in naturally with its surroundings.

Thin and Lightweight

The PN-H701 monitor owes its exceptionally thin profile to edge-lit LED backlighting. Streamlined for a pleasing appearance and minimal protruding parts, this monitor measures only 69 mm at its thickest point and weighs only 38 kg, making for easy placement in offices, public spaces, stores, and other commercial establishments. The stylishly thin profile also enables attractive wall mounting in a choice of portrait or landscape mode.

Professional Operation

Choice of Installation Mode

The PN-H701 offers a choice of landscape or portrait installation, allowing you to select the mode that best suits your display content and application. While portrait installation offers the look and impact of a poster, landscape installation puts wide images on vivid display.

24/7 Operation

Designed for around-the-clock use and rugged operating conditions, the PN-H701 is a reliable and commanding presence in demanding 24-hour professional applications. Even after long hours of continuous operation*, this monitor delivers a sharp, clear picture.

* Image persistence may occur when the same static image is continuously displayed for extended periods of time. Image persistence can be gradually removed by displaying a video or moving graphics.

LAN/RS-232C Control

Thanks to its LAN/RS-232C interface, the PN-H701 can be easily controlled and monitored from a central location via a PC. This enables you to remotely turn the monitor on or off, switch its input, or adjust the screen and settings.

Note: Functions that can be controlled via LAN/RS-232C are limited. Some systems require an individual PC to control each monitor.

Built-In Speakers

Built-in speakers eliminate the need for external speakers and keep the PN-H701 stylishly streamlined. The speakers emit sound from both sides of the screen, making them ideal for conveying audio information.

Specifications

Model Name		PN-H701
Installation		Landscape / Portrait
LCD Panel		70-inch-class (69 1/2-inch [176.6 cm] diagonal) TFT LCD
	Max. Resolution	3,840 x 2,160 pixels
	Max. Display Colours (approx.)	16.77 million colours
	Pixel Pitch (H x V)	0.401 x 0.401 mm
	Max. Brightness*1*2	400 cd/m ²
	Contrast Ratio	3000 : 1
	Viewing Angle (H/V)	176°/176° (CR ≥ 10)
	Active Screen Area (W x H)	1,538.9 x 865.6 mm (60 9/16" x 34 1/16")
	Response Time	6 ms (grey to grey, avg.)
	Backlight	LED, edge lit
Computer Input		
	Video	HDMI , Analogue RGB
	Synchronisation**	Horizontal/vertical separate (TTL: positive/negative)
	Plug & Play	VESA DDC2B
Input Terminals*3		HDMI x 4: (HDCP1.4 compatible: HDMI 1 – HDMI 3), (HDCP2.2 compatible: HDMI 4), (ARC compatible: HDMI 1), (MHL compatible: HDMI 4), Mini D-sub 15-pin x 1, RS-232C x 1*4*5, USB x 1 (photo, video, music)*6, 3.5 mm-diameter mini stereo jack x 1
Output Terminals*3		Digital audio output (optical) x 1, 3.5 mm-diameter mini stereo jack x 1
Input /Output Terminals*3		LAN: 10Base-T/100BASE-TX x 1
Built-in Speakers		10 W + 10 W
Mounting		VESA (4 points), 400 mm (15 3/4") pitch, M6 screw
Power Supply		100V–240V AC, 50/60 Hz
Power Consumption		270 W
Environmental	Operating Temperature	0°C to 40°C
Conditions	Operating Humidity	20% to 80% RH (no condensation)
Dimensions (W x D x H) (approx.)		1,559 x 69 x 894 mm
(display only)		(61 3/8" x 2 11/16" x 35 3/16")
Weight (approx.)		38.0 kg (83.8 lbs)
Main Accessories		Remote control unit x 1, cable clamps x 4, cable clamps (insertion type) x 2, power cord x 1, R-6 battery (AA size) x 2, CD-ROM x 1, setup manual x 1, power cord clamp x 1, power cord clamp screw x 1, USB flash drive cover x 1, USB flash drive cover screw x 1, horizontal sticker (logo) x 1, vertical sticker (operation panel) x 1, RS-232C conversion cable (3.5 mm-diameter mini stereo jack) x 1, USB extension cable x 1

*1 Brightness depends on input mode and other picture settings. Brightness level will decrease slightly over the lifetime of the product. Due to the physical limitations of the equipment, it is not possible to maintain a precisely constant level of brightness.
 *2 When installing the monitor in the portrait orientation, and the internal temperature of the monitor rises excessively, the brightness of the backlight automatically decreases in order to prevent a further temperature rise. *3 Use a commercially available connection cable for PC and other video connections. *4 Requires the bundled RS-232C conversion cable. *5 Only for command control. *6 Supported media formats: JPEG for photos; MP4, M2TS, 3GP, and MOV for videos; and WAV, WMA, M4A, and MP3 for music. Note: USB storage device sold separately.

** Sync-on green and composite sync are not supported.

Dimensions

Units: mm (inch)

* Screen dimensions

* To use the VESA-standard mounting bracket, use M6 screws that are 8 to 10 mm plus the thickness of the bracket.
